PROFESSIONAL EXPERIENCE

Investment Analyst — KIFFWA

Oct 2025 – Present

Kenya Innovative Finance Facility for Water | Nairobi | Blended finance facility mobilising concessional and commercial capital for water service providers.

- Lead origination, due diligence, and Quick Scan triage of inbound project proposals against mandate, technical viability, and SDG 6 alignment; maintain the deal pipeline tracker.
- Delivered exit valuation model for a 27.5% equity stake in a portfolio hydropower SPV, with tailored analytical write-ups for the Investment Committee, external buyers, and Management Committee.
- Prepared IC papers for a non-performing concessional loan recovery, and executive recommendations to the CEO on third-party advisory proposals (Fund Launch Partners, Anza Capital, Madison Investment Managers).
- Coordinate biweekly Project Implementation Committee (PIC) engagements with portfolio companies, regulators, and co-financiers, including a live water-kiosk deployment partnership with Amref Kenya.
- Cultivate co-financing and programme-partnership relationships with DFIs, foundations, and multilaterals: African Water Facility, CEWAS, Pharo Foundation, UNICEF, CARE International, Adelphi, Norfund.
- Contributed to KIFFWA's next-phase strategic plan (KIFFWA III, 2027–2031): reviewed draft strategy and produced the polished 58-page final document for EKN; rebuilt the fund-level financial model to FAST modelling standards.

Corporate Finance Semi Senior — RSM Eastern Africa Consulting Ltd

Nov 2023 – Apr 2025

Nairobi | Held Semi Senior grade with Project Senior responsibilities on major engagements.

- Led financial modelling, valuation, and capital-raising mandates across manufacturing, healthcare, real estate, education, and agribusiness in Kenya, Uganda, Tanzania, Mauritius, and Indonesia.
- Project Stationer (Regional Paper Group): built the financial model that supported a successful USD 12 million debt raise across four countries.
- Project Cure (Pharmaceutical Industrial Park): developed a 10-year, 3-statement project finance model covering 12 asset classes for a USD 150 million project.
- Various valuation mandates: DCF, NAV, and comparable-multiples valuations on transactions cumulatively exceeding USD 250 million.
- Metal Manufacturing Turnaround: budget modelling and creditor reporting under court-mandated administration; Project Mart: forensic asset-tracing for a regional supermarket chain.
